ABOUT ME

Anita Torres, known as Anita hoopNroll, is originally from Andalusia, Spain. She began her artistic career in the circus in 2011, participating in social projects at circus and theater schools, primarily using hula hoops as a tool.
Her dedication and talent have led her to make a living from what she truly loves: art and the circus. She has performed internationally in countries such as the United States, Mexico, Thailand, India,and, of course, in her homeland, Spain.
In her homeland, she has collaborated with city councils and obtained artist permits to perform in Ibiza, as well as at local events such as the Three Kings' Parade and various festivals.

Her dedication and talent have not only allowed her to shine on stage but also to inspire new generations of circus artists. Anita hoopNroll is an example of how passion and perseverance can turn a dream into a tangible reality, allowing audiences from different cultures and countries to delight in her art.

In addition, Anita has developed workshops and educational programs that foster the development of artistic and personal skills through circus. Her commitment to the community is evident in every project, demonstrating that art can be a powerful tool for social transformation.

With each performance, Anita not only shares her Hula Hooping skills but also her enthusiasm and love for the circus, instilling a sense of magic and wonder that leaves an indelible mark on those who have the opportunity to see her in action.

Anita combines various types of performances into a magical display. Her main act, adorned with LED lights and hula hoops, features between one and 10 hoops, merging classic circus tricks with geometric figures, most of which are her own creations.

In the world of hula hooping, Anita is recognized for her innovation and mastery of sacred geometry, interweaving multi-hooping and creating dazzling figures with up to 10 hula hoops, offering a unique and authentic visual spectacle

HULA HOOP

Expression, Art, Passion

• Introduction •

An alchemist of creation with Hula Hoops, linked to art and passion, with a goal of producing entertainment and wowing audiences with motivation, communication, and charm.
Unique expression when dancing with this sacred circle

Each movement is a choreography that tells stories, a body language that communicates beyond words.

Through the art of hula hooping, the alchemist transforms the ordinary into the extraordinary, taking the audience on a journey filled with creativity and excitement. The connection between artist and audience strengthens with each spin, creating an atmosphere of shared magic

MULTI HOOPING ACT

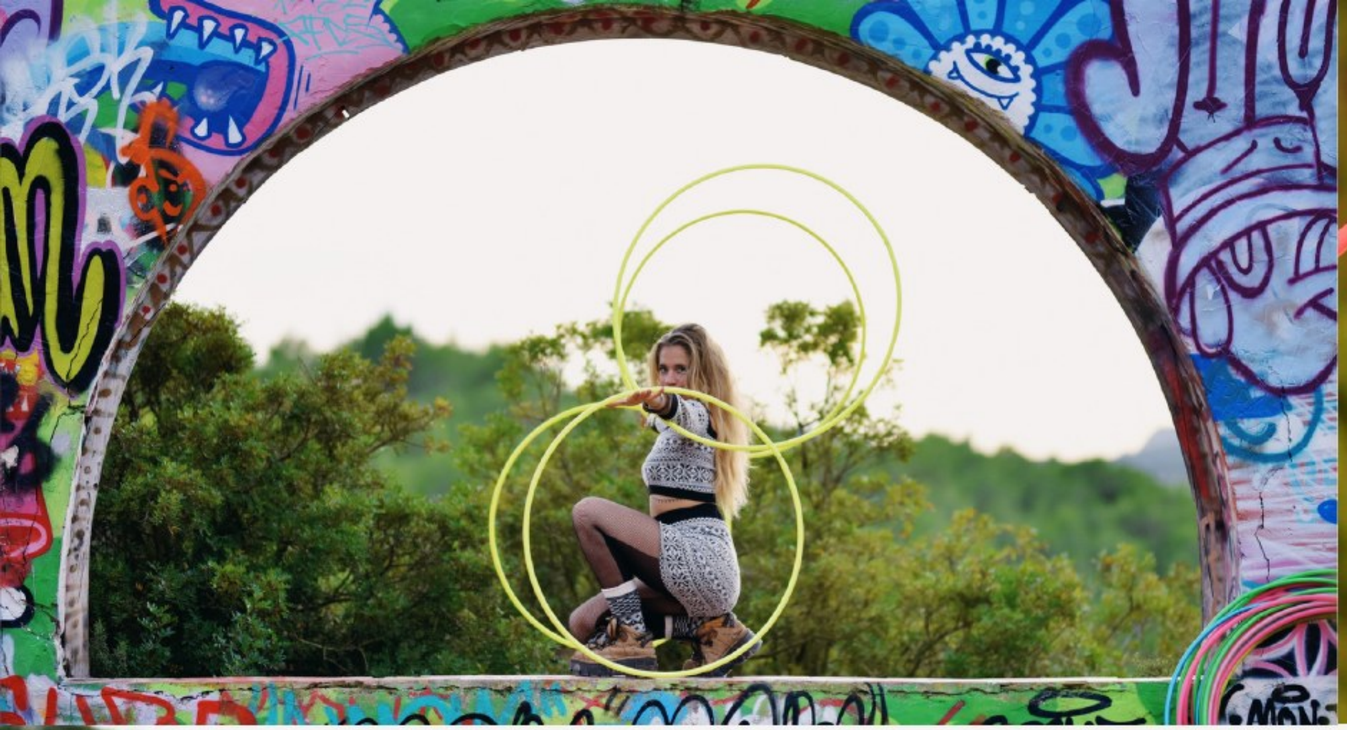

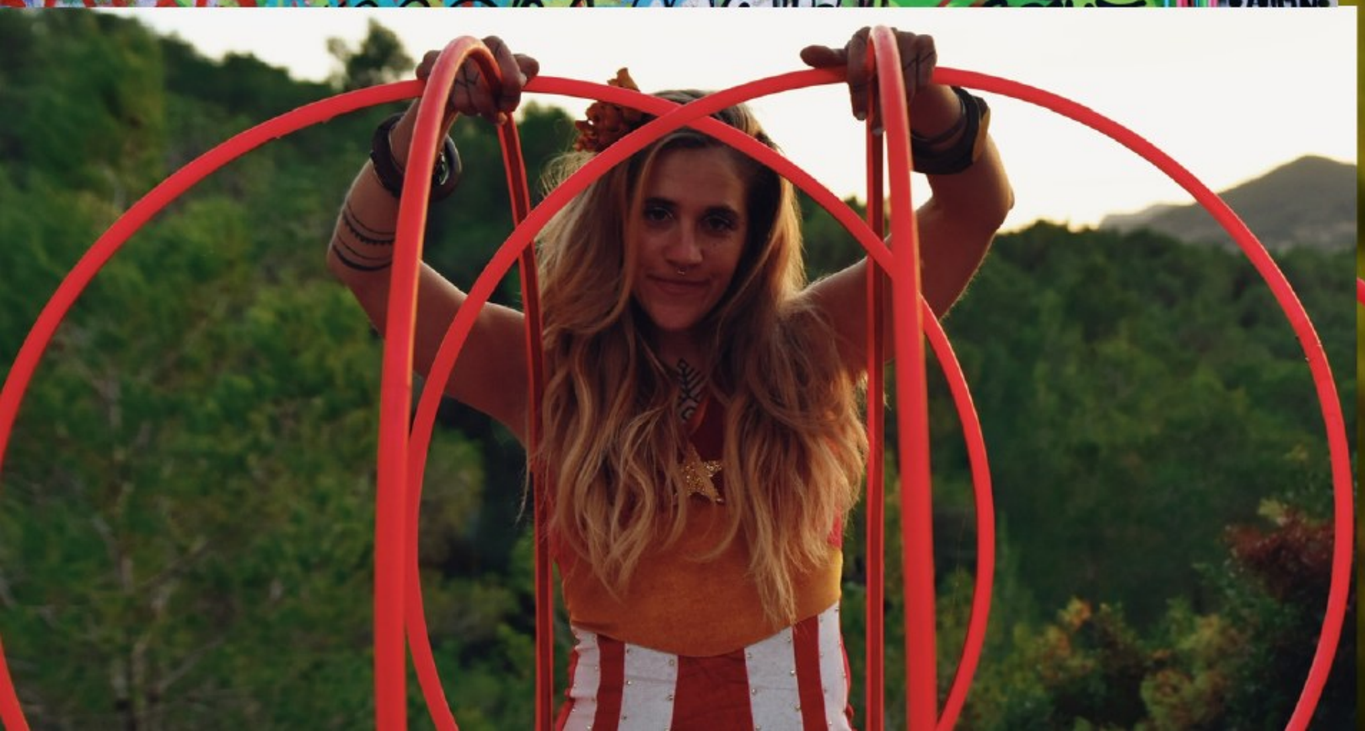

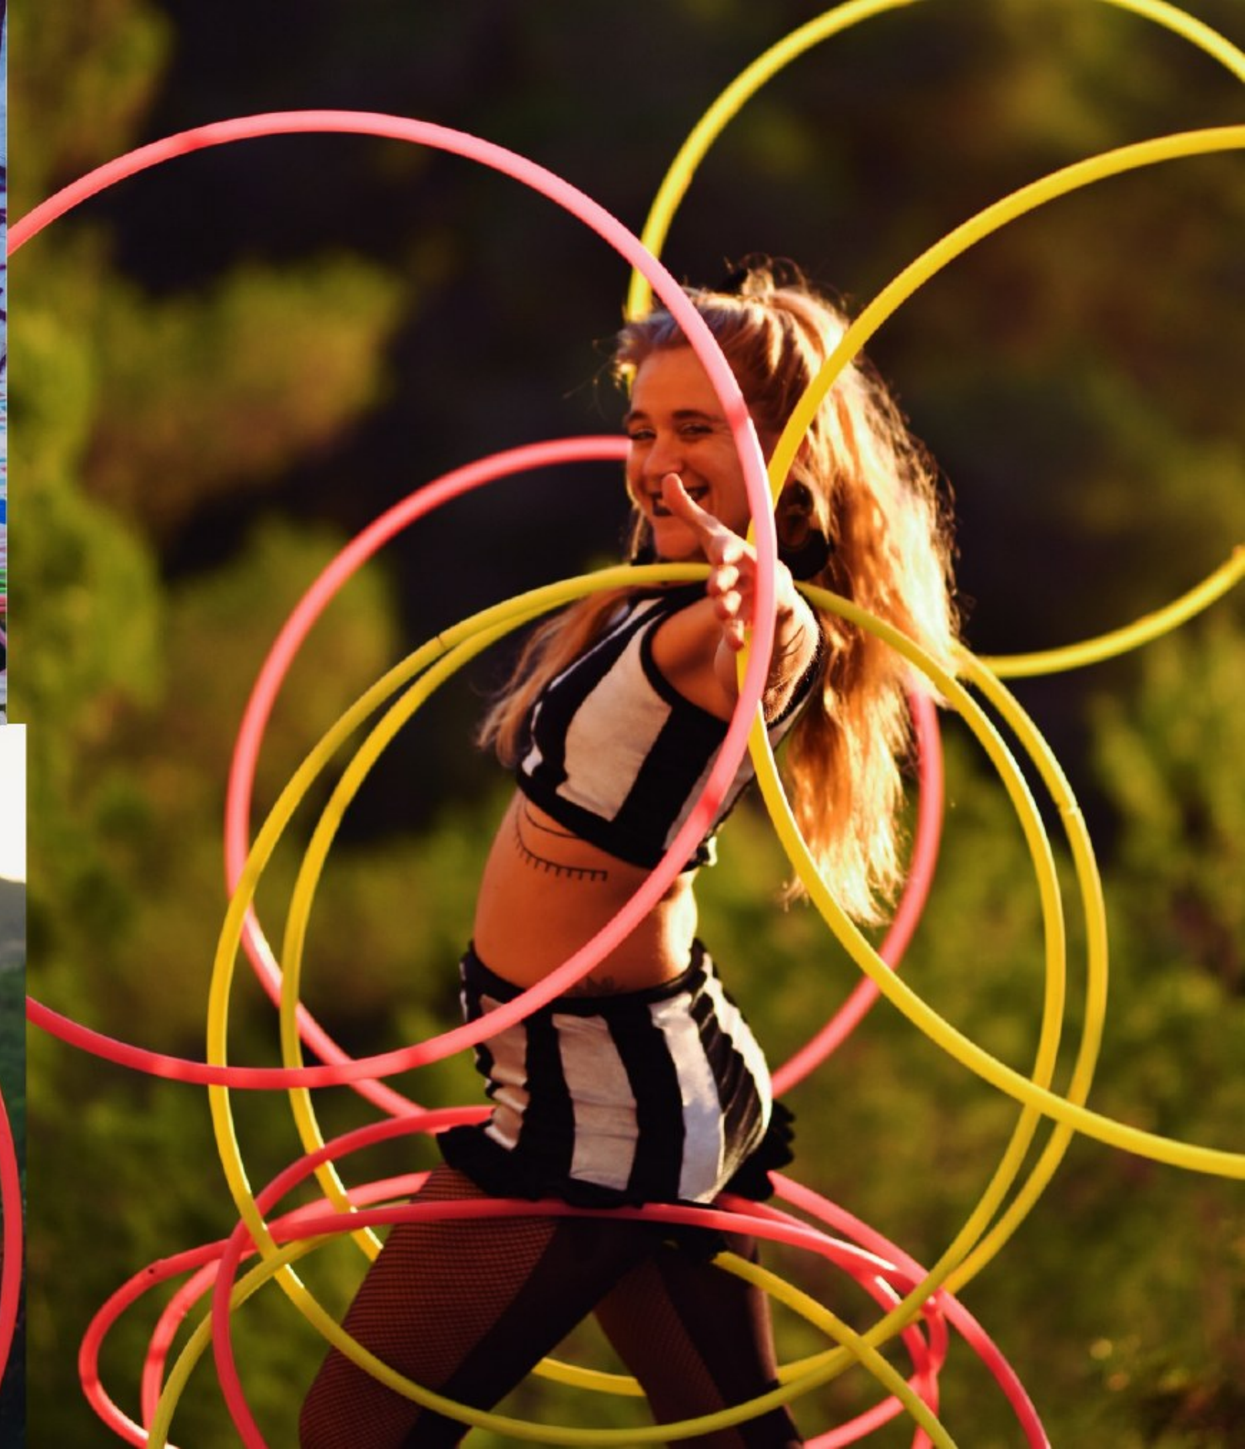

.In my multi-hooping act, I work with between 1 and 10 hoops, creating various geometric shapes and performing classic circus tricks, such as dissociating six hoops from different parts of my body, balancing, and much more.
The routine progresses from the fewest to the most hoops. Finally, I present my Slinki hoop act, which includes 20 hula hoops and creates a special optical effect.

The combination of skill and creativity
overflows in each performance,
taking viewers to a fantasy world
where
the impossible becomes possible.

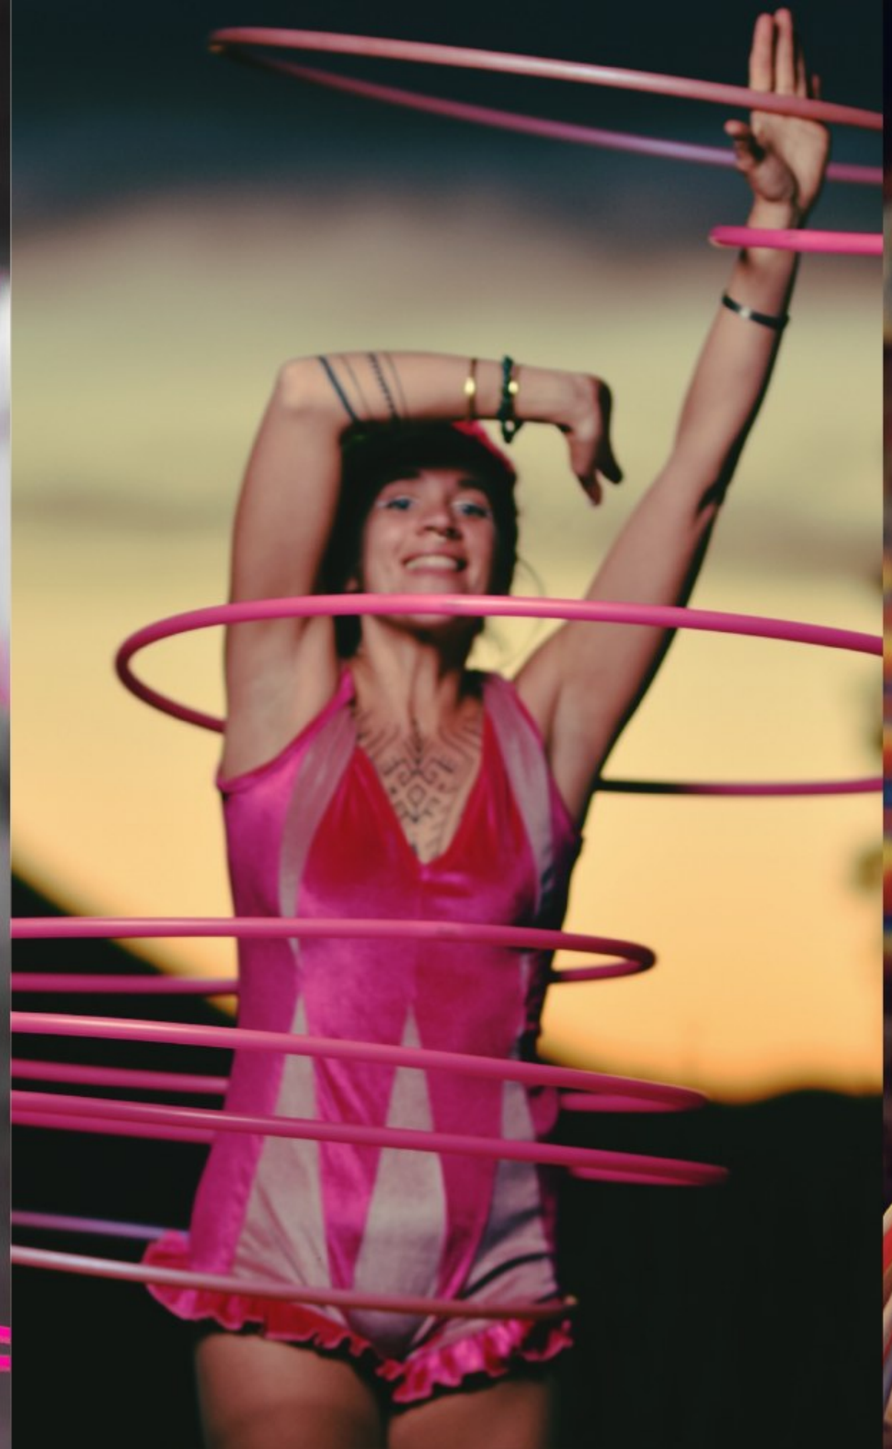

HULA HOOP LEDS

My LED number is my star number, as it's the one I use most often for my performances in various venues around the world.
This is the same number I present at all circus events and conventions, and the one I use as a hula hoop artist.
My multi-hooping LED number accompanies me to a wide variety of venues, including weddings, private events, festivals, restaurants, and clubs.

The material I use for my props (LEDs) is of the highest quality on the market. I collaborate with a US brand, MoodHoops, that sells these hula hoops and supports me as a sponsor, creating videos and content for social media.

FIRE PERFORMANCE

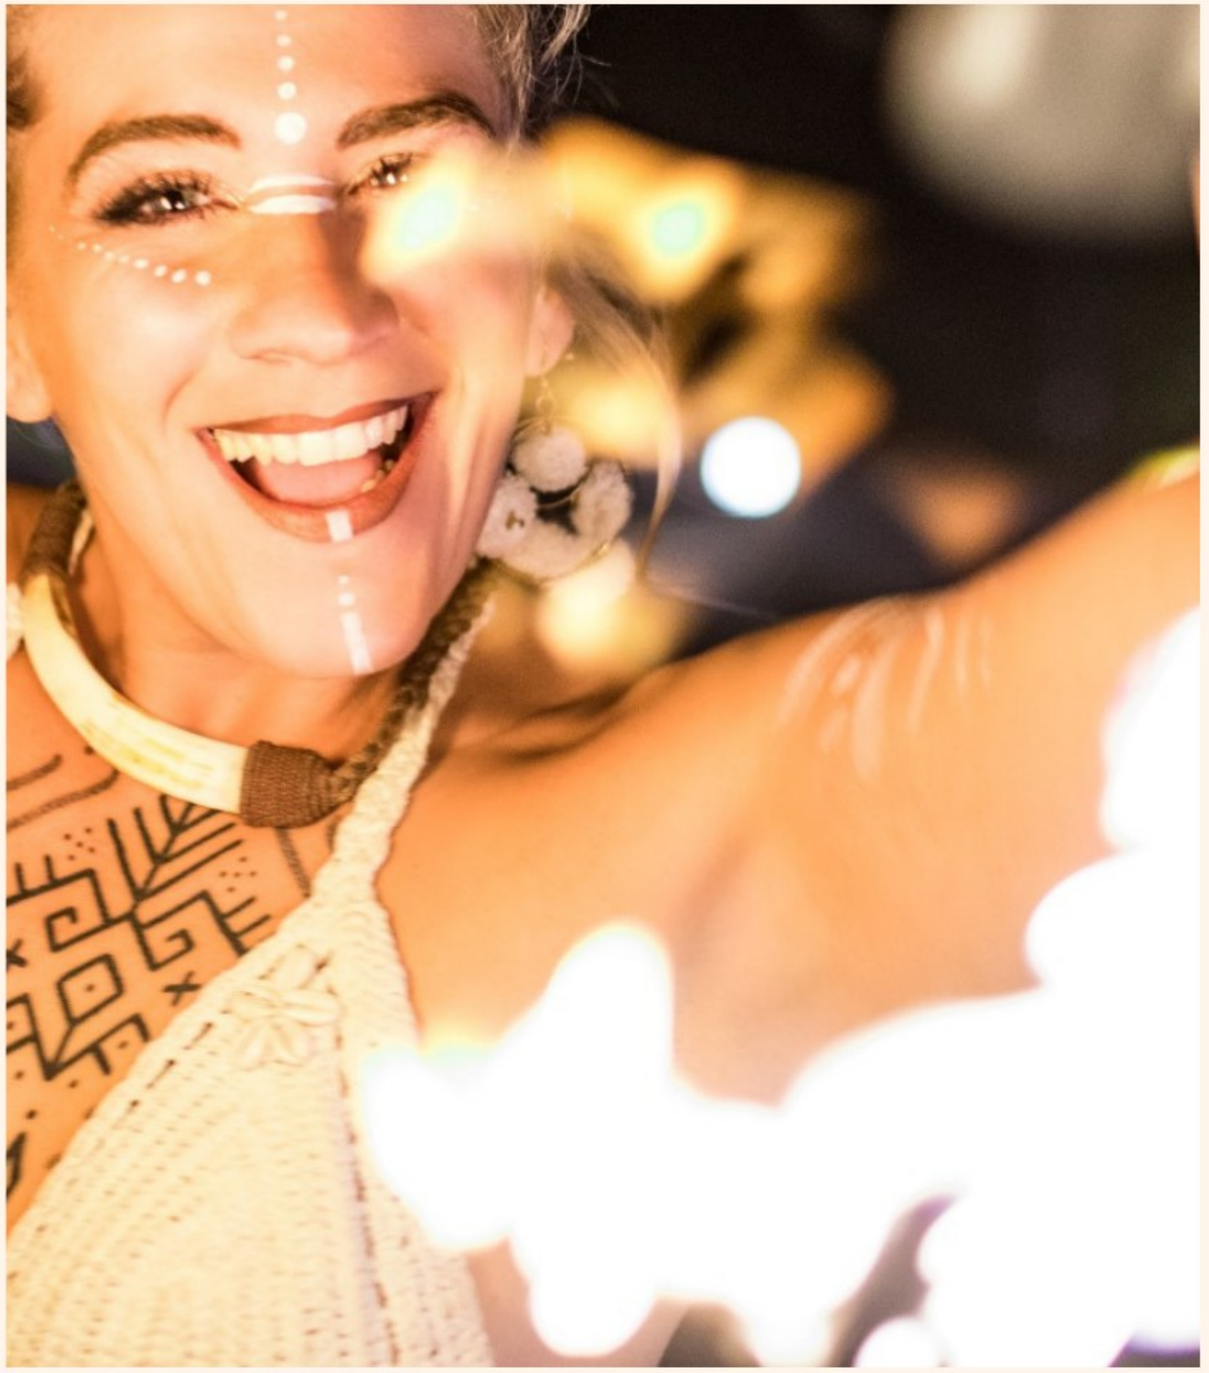

My fire act is based on a tribal and ancestral fusion that combines dance and circus. I use hula hoops (multi-hooping), a sword, a crown, and fans, among other elements. At some events and weddings, I begin my performance with a Gopal ceremony and a ritual to bless the bride and groom and each of the participants. This alchemy and fusion make the show a truly magical experience.

The vibrant colors and rhythmic drumming set the stage as the audience is transported to a world where ancient traditions meet modern artistry. My costume shimmers with intricate patterns, echoing the heritage that inspires my movements. As the flames dance around me, they illuminate the night with a mesmerizing glow, casting flickering shadows that tell stories of old. Each step, each twirl, is imbued with meaning, a tribute to those who came before and a celebration of the present moment.

The hula hoops spin effortlessly, creating fiery halos that captivate and enchant. The sword glints dangerously, a symbol of strength and grace, while the crown and fans add an air of regal elegance. The audience is drawn into this spellbinding narrative, their senses awakened by the sights, sounds, and scents of this unique performance.

As the ceremony concludes, a sense of unity and joy fills the air. The bride and groom, now blessed by the ancient rituals, step into their new life together, surrounded by the warmth and love of their community. With a final flourish, the flames die down, but the magic lingers, leaving an indelible mark on all who have witnessed this unforgettable spectacle.

FLAMENCO HOOP

My FLAMENCO-HOOPS performance is a beautiful expression that celebrates my Andalusian roots. This performance combines the essence of flamenco dance with my hula hoops, integrating multi-hooping and flamenco dance. By intertwining these two elements, the resulting fusion highlights Spanish folklore, without ever losing the spirit of the blend.
